

Electric Power and Power Electronics Institute

WEEKLY SEMINAR SERIES – SPRING 2015
Monday, Mar. 2nd, 2015, 3:00 – 3:50 p.m., WERC 236C
(Special time, location changed)

PRACTICAL LOOK AT DESIGN PROCESSES AND APPLICATIONS

Benjamin K. Stallwitz P.E. '09
Electrical Design Engineer
Zachry Engineering Corporation

Abstract

The purpose of this presentation is to expose the audience to a working perspective of a licensed Professional Engineer active in design in the Power Industry. Some examples of design considerations will be excerpted from auxiliary power systems at industrial plants which were recently constructed.

Biography

Ben graduated with his degree in Electrical Engineering from Texas A&M in 2009 with an emphasis in power/power-electronics. Upon graduation, he started working with Zachry Engineering Corporation in Amarillo, Texas as a design engineer. Most of Ben's design portfolio consists of new construction projects in the power generation market. Ben holds a professional engineering license in the states of Texas and Florida.
