

SMART GRID CENTER
TEXAS A&M ENGINEERING EXPERIMENT STATION

Advisory Board Member

Mr. Woody Rickerson

**Vice President, System Planning & Weatherization
Electric Reliability Council of Texas (ERCOT)**

As Vice President of System Planning & Weatherization, Woody Rickerson oversees transmission planning, generator interconnection activities, system modeling, and weatherization for the ERCOT region.

Mr. Rickerson brings a considerable amount of electric industry experience to his position, including more than 21 years at ERCOT in various roles. A licensed professional engineer, Mr. Rickerson has worked for utilities in Texas, Arizona, and New Mexico. He has a bachelor's degree in Electrical Engineering from New Mexico State University and a master's degree in Engineering Management from the University of Colorado.
