

SMART GRID CENTER
TEXAS A&M ENGINEERING EXPERIMENT STATION

Advisory Board Member

Mr. Richard Medina

P.E., Executive Vice President Energy Delivery Services

Richard Medina is responsible for the safe, reliable and economical delivery of electrical power to our customers. He oversees the Engineering, Planning, and Field Operation functions for Transmission, Substation and Distribution, along with System Operations, Customer Reliability and asset management programs associated with electric delivery.

Richard has led many of our grid transformation strategies including our electrification roadmap, optimization of EV infrastructure, and fostering alliances with local and national research leaders.

He has been with CPS Energy for over 29 years and has served in a variety of leadership positions at our utility as well as serving on several external boards and committees such as EPRI, Texas A&M Smart Grid, Advanced Energy Economy and others. Richard has a Bachelor of Science in Electrical Engineering from Texas A&M University and is a registered professional engineer in the State of Texas.
